SQUID INK BOOKS

is very pleased to offer books from the collection of Betty Rapp Tarr. Betty was one of the first female, Ph.D., Chemical Engineers in this country with degrees from the Universities of Toledo and Illinois. She lived in Los Angeles during her career, as well as in North Carolina and Oklahoma. Dr. Tarr worked in the patent department of the Phillips Petroleum Company for several years. In 1955 she became Research Librarian for the Technicolor Corporation and was a research chemist with the Bell and Howell Research Laboratory in Pasadena. She loved art, was a fairly accomplished artist herself, and was well-known in galleries on both coasts during the 1950s and 60s as she built her collection of art and art books. She was an independent woman of the world with tremendously diverse interests. Betty retired to Tucson and spent her last years here. The books highlighted in this catalogue are from her estate.

A Catalogue of ART BOOKS from The Collection of BETTY RAPP TARR

BRT-01 Rouveyre, Andre and Henri Matisse "Apollinaire" Raisons d'Etre 1952 Paris

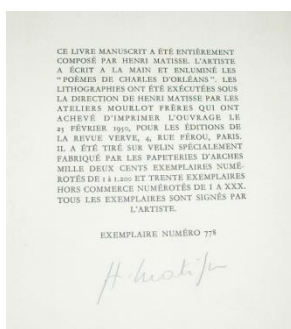

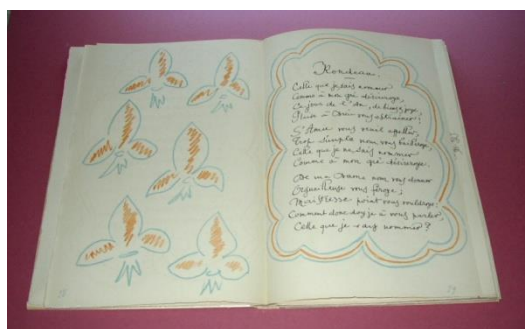

First Limited Edition – Text in French - Very Good slipcase and spine of folding cover insert with some wear and soiling and small splits top seams of slipcase. Contents are Near Fine to Fine with some mild edge yellowing due to age. Loose inserts in the folding cover. Printed by Mourlot on "velin d'arches a la forme," with 11 original prints: 7 lithographs, 3 small linocuts, and 1 etching with aquatint. This is number 29 of 330 such copies. **Signed** in pencil by Rouveyre and Matisse on the limitation page. **\$4750.00**

BRT-02 Matisse, Henri "Poemes de Charles d'Orleans" Teriade Editeur for Verve 1950

One of the original sets of 1200 lithograph copies of Matisse's original, which was done in color pencil and crayon. The text is a selection of Charles' poems that Matisse wrote out in hand in French. He then added fleur de lis decorations and hand drawn borders, all in various colors. Slightly more than 100 pages and more than 50 original lithographs, loose in sets of four pages each, housed in illustrated wrappers. A beautiful set with only slight offsetting on some internal pages. The acetate protector on the wrappers is yellowed and has a closed tear bottom left of front cover. **Signed** by Matisse in pencil on the limitation page. This is copy number 778. The protective cardboard box is in Poor condition, soiled and faded, with splits at the seams and one long, folding flap detached. Even though the number produced was large, intact copies are quite rare – presumably because many copies were broken and sold separately as single Matisse lithographs. This production is widely considered one of the most important illustrated books ever done. Included is a note from M. J. Royer, Antiquarian Bookseller and Gallery of Fine and Applied Arts, Los Angeles, to "Mrs. Tarr" stating that he has located this copy in Europe. The note is dated Dec. 4, 1958; additionally there is an Invoice for the purchase dated 14 Feb. '59. **\$7000.00**
